Location Highlights

Bodrum, a world-renowned top holiday destination in Turkey, is a peninsula located in the southwest Aegean Region. Bodrum which is a district of Mugla is considered as paradise for tourists featuring charming neighborhoods, various ancient sites for sightseeing, exquisite bays, turquoise sea, mild Mediterranean climate, modern transportation and a vibrant night life. The city's developed transportation infrastructure and port which welcomes international cruise liners also plays an important role in attracting millions of tourists.

In the ancient Greek, Bodrum was called Halicarnassus. Halicarnassus was especially famous for housing Mausoleum of Mausolus, one of the Seven Wonders of the Ancient World. Built by the Knights Hospitaller in the 15th century, Bodrum Castle overlooks the harbour and the marina. Inside the castle is a museum of underwater archaeology. The castle hosts several cultural festivals throughout the year.

Bodrum is Turkey's most vibrant Turquoise Coast. The magnificent long coastline has secluded bays, splendid coves and numerous wonders of nature. Bodrum Marina which is among the most sophisticatedly designed marinas in the Aegean and Mediterranean Seas serves as a perfect environment for both tourists and yacht operators who are ready to whisk you away into the deep blue waters of the Mediterranean Sea. With a handful of ancient attractions for sightseeing, Bodrum is filled with photogenic, old, whitewashed houses.
